

The enhanced cooperation for the establishment of the EPPO

The project is co-funded by the European Commission (Hercules III programme).

The project aims to improve the knowledge of the problematic intersection of EPPO regulation and national law in the comparative perspective and to identify and discuss possible solutions and working methods to overcome problems that may hinder the operational set up of the EPPO.

The project will organize a **two days international conference** to be held in Rome on the May 24th - 25th 2018. During the conference European criminal law experts, representatives of the main European institutions involved in the protection of financial interests and national judges, will discuss the issues opened up by the **EPPO regulation**.

The conference will be open to judges, prosecutors, lawyers, law students and all stakeholders involved in protecting the financial interests of the Union and of the Member States.

The proceedings of the conference will be collected in a bilingual **publication** which will be printed and distributed to the main actors interested in the institution of the EPPO and published on the Basso Foundation website.
