

# Data Protection Challenges: DPOs Between Carrots and Sticks

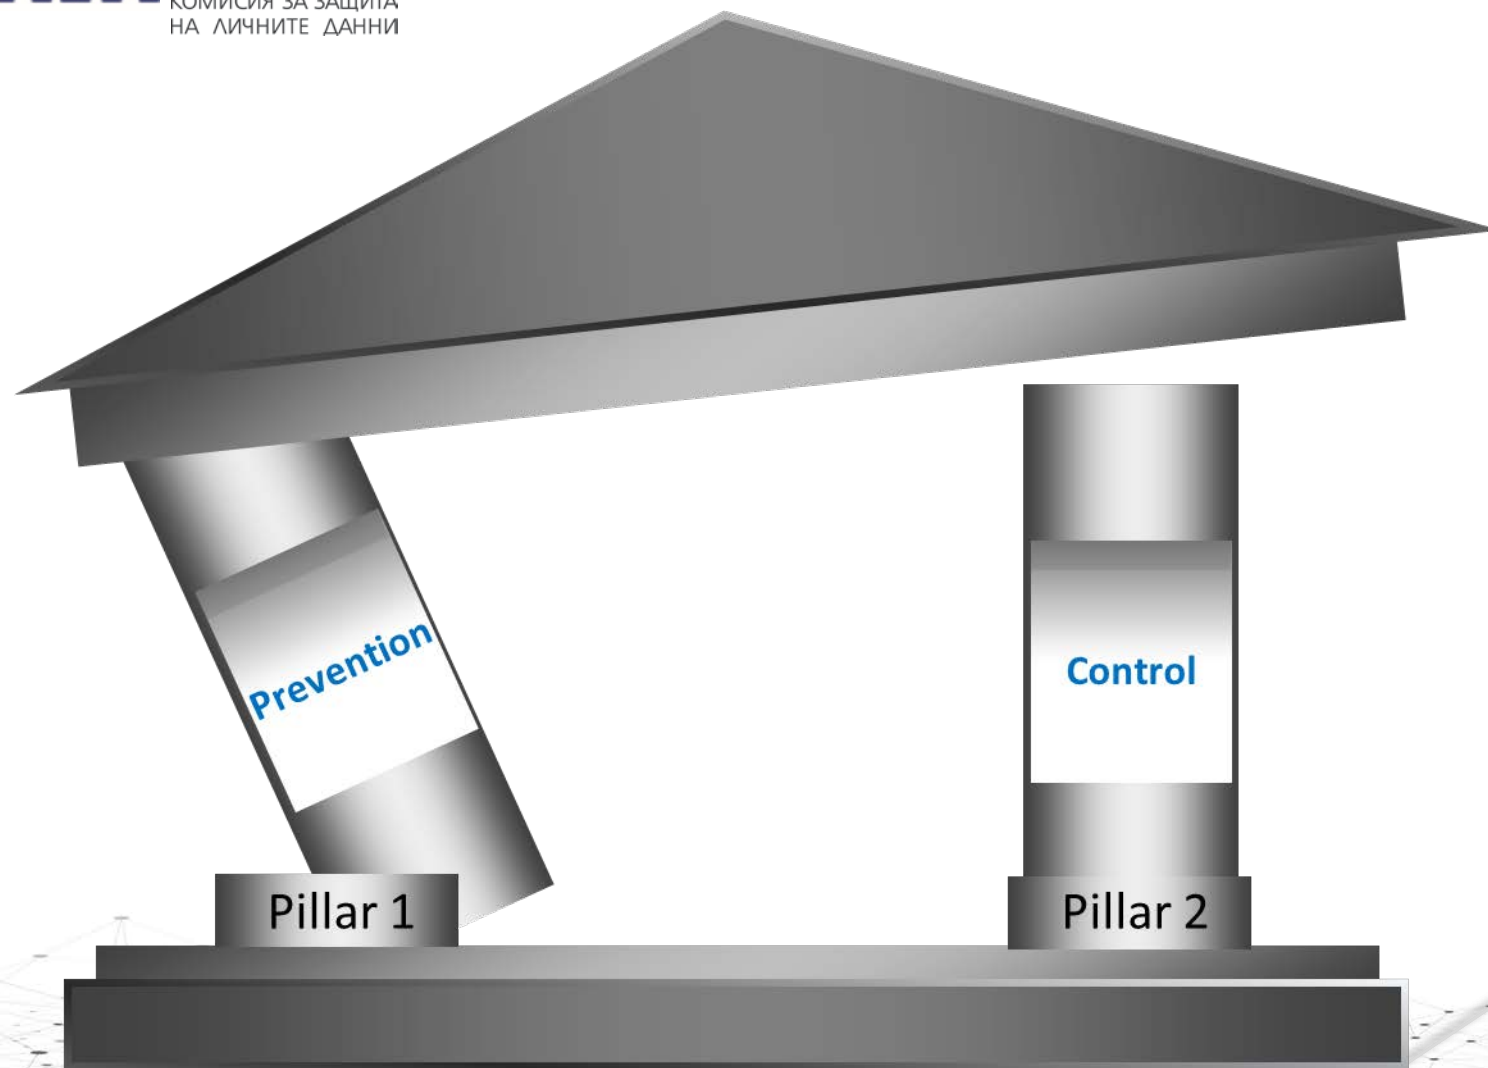

# CPDP Model

# CPDP Model

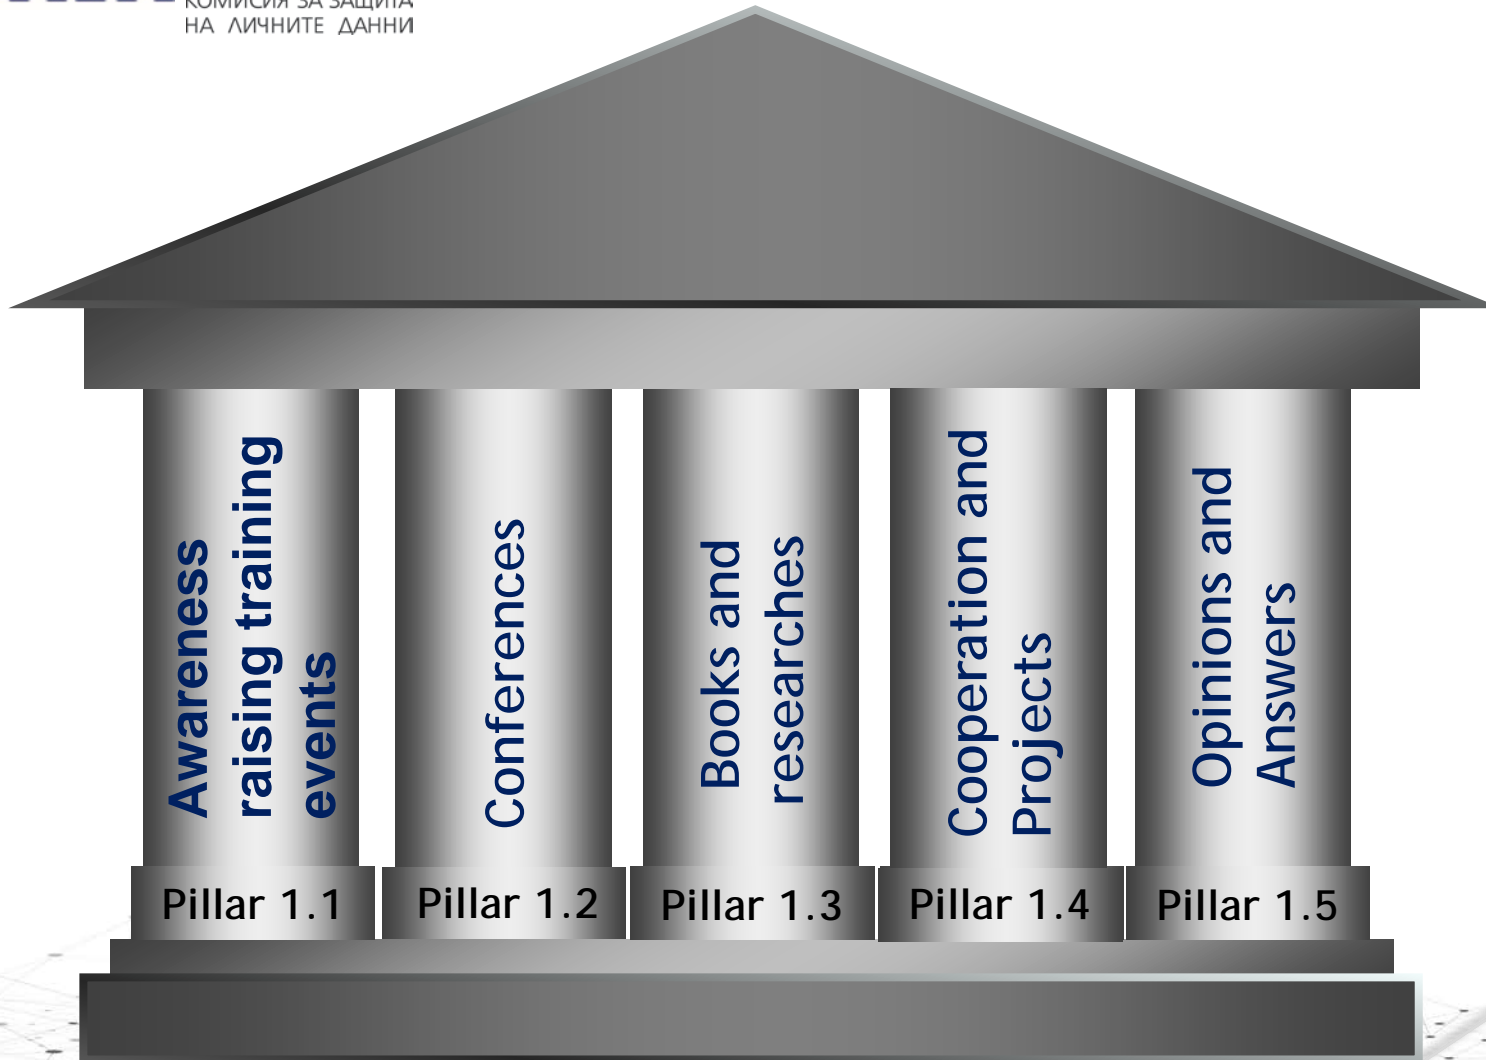

# CPDP Model

# CPDP Prevention Model

# Pillar 1.1

## Awareness raising training events

- Until 2018 – almost 4 700 participants;
- 2018 – over 60 events with more than 6 000 participants;
- 2019 – over 25 events with almost 2 000 participants, mainly from public sector.
- Forecast: about 1 000 attendees annually in the CPDP events if current organisational and financial structure remains the same.

## Pillar 1.2 Conferences

- November 2015: Trust, Privacy and Security of Personal Data in the Digital World - <https://www.cpdp.bg/conference/>

- October 2018: International Conference of Data Protection and Privacy Commissioners - <https://www.privacyconference2018.org/en.html>

- October 2019: Cyber Policies - [website](#)

## Pillar 1.3

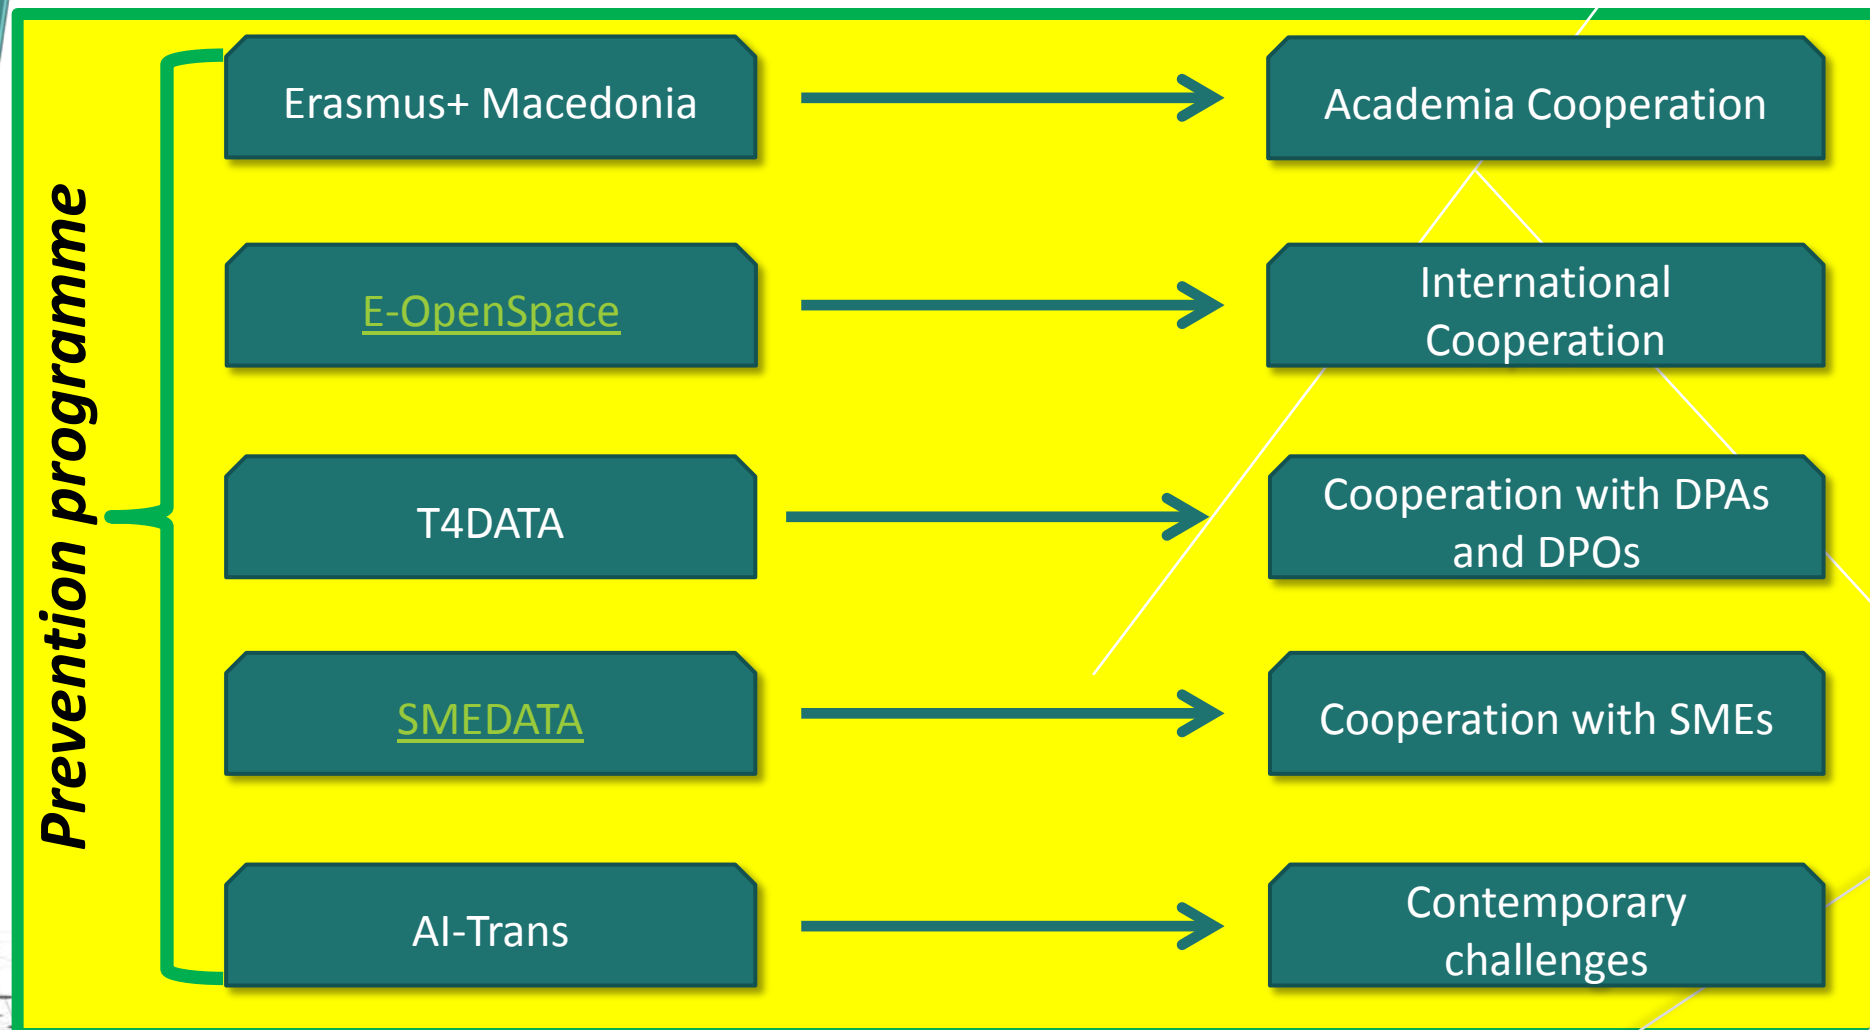

### Books and researches

- Survey on challenges faced by Small and Medium-sized Enterprises and their associations while implementing GDPR in March and April 2019.

## Pillar 1.4 Cooperation and projects

# Pillar 1.5

## Opinions and answers

Three times  
higher workflow  
than 2017

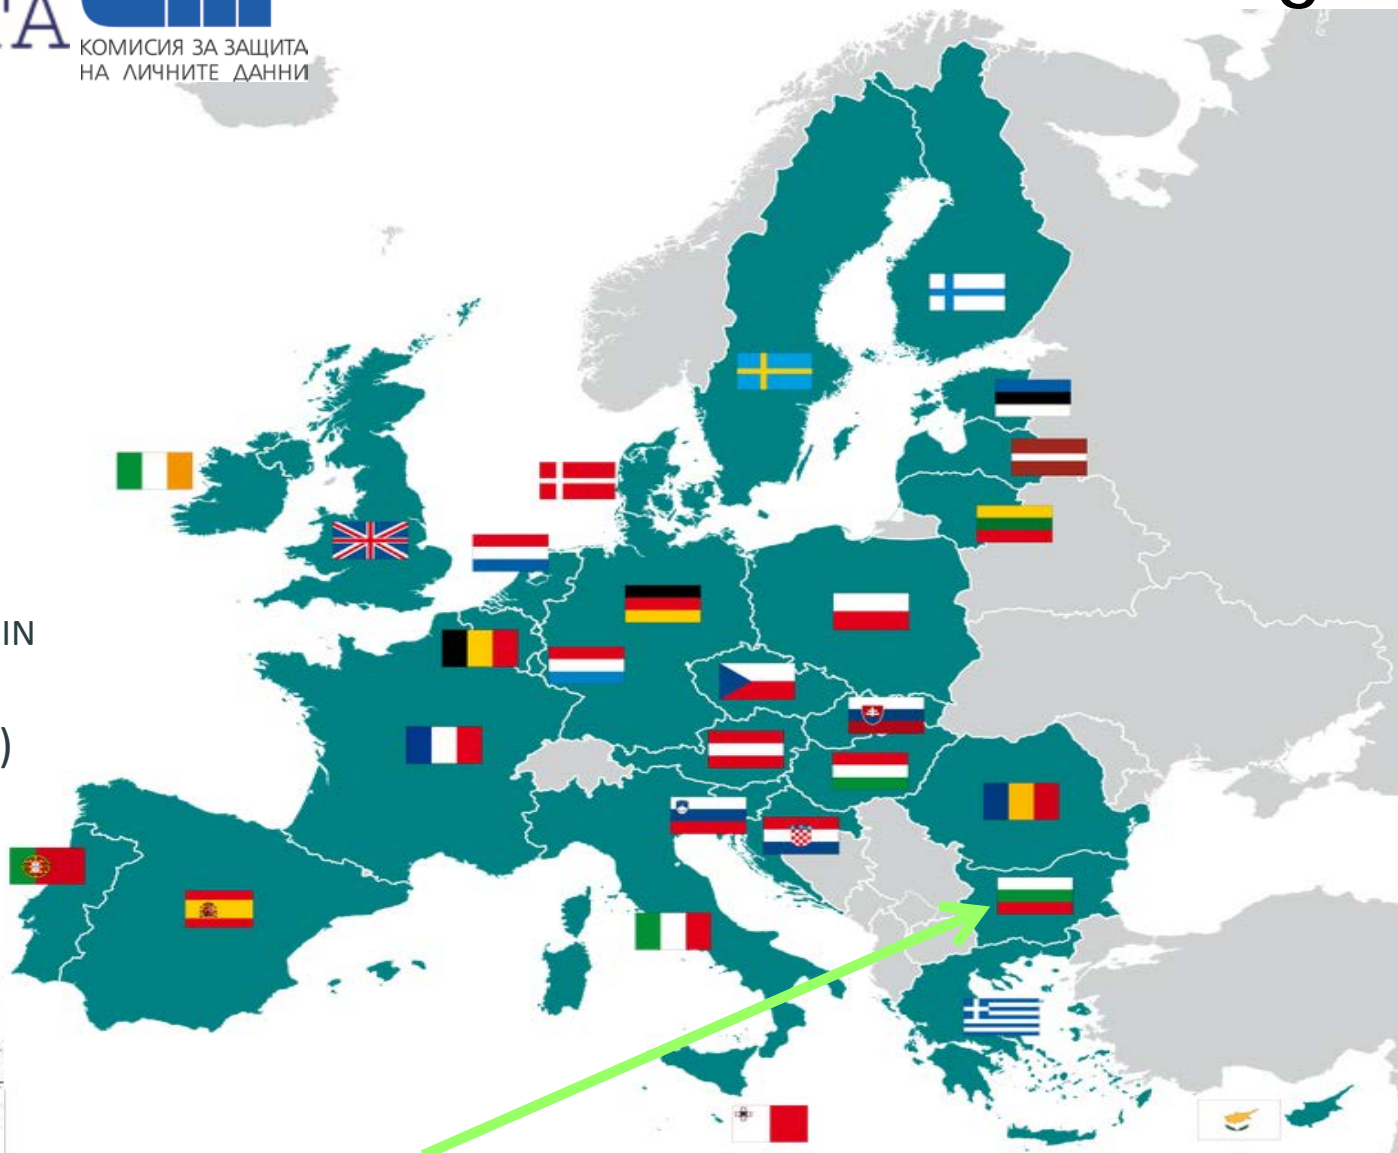

# T4DATA and Bulgaria

POPULATION:  
7,000,039 (2018)

TOTAL STAFF NUMBER IN  
PUBLIC SECTOR:  
99 258\* (JUNE 2019)

354 STATE AND LOCAL  
AUTHORITIES

Co-funded by the Rights, Equality and Citizenship  
Programme of the European Union (2014-2020)

# DPOs in Public Sector

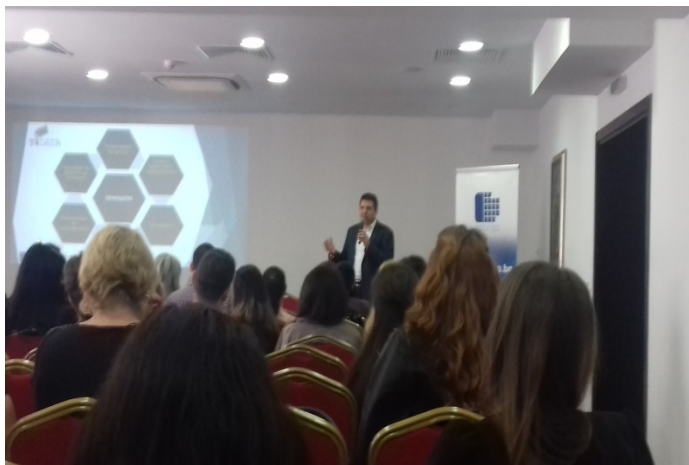

- Total number of registered DPOs: 4 100 until the end of October 2019
- About a fifth of them are actually\* from Public sector\*\*
- There will be public register on the [www.cpdp.bg](http://www.cpdp.bg) soon

# T4DATA local seminars

- Burgas
- Sofia
- Plovdiv
- Veliko Tarnovo
- Ruse
- ...

# DPOs' cases

- Ensuring independent activities (Conflict of interest);
- DPO is responsible for all data protection activities;
- Lack of templates;
- Managerial support for DPOs;
- Ways for closer cooperation with the national DPA...

# Lessons learned

- National DPA as a main source of information in the field of personal data protection:

*Code of Best Practices for DPOs* - Intellectual Output under Erasmus+ project entitled "AI-Trans: Increasing AI Transparency Through Digital Alternative Learning of Privacy Training" - informal information channel/network for exchanging experience and knowledge.

*Expected launch: end of 2020*

# Lessons learned

- Ensuring contemporary communication channels:

*Pilot online non-formal training* - based on T4DATA, e-OpenSpace and SMEDATA training contents via e-OpenSpace platform.

*Expected launch: beginning of 2020*

# Lessons learned

- Adequate answering to the modern challenges:

*Further cooperation with other DPAs under various project*

*Expected launch: beginning of 2020*

**No one is big enough,  
alone**

# Thank you for your attention!
